

Ares Management, L.P. Reports Third Quarter 2017 Results

LOS ANGELES--Ares Management, L.P. (NYSE:ARES) today reported its financial results for its third quarter ended September 30, 2017.

"Ares generated record levels of fee related and distributable earnings during the third quarter driven by continued strong growth in our management fees and the partial monetization of several successful investments," said Tony Ressler, Chief Executive Officer of Ares. "Our investment performance and platform expansion has contributed to our strong fundraising with more than \$5 billion of inflows during the third quarter and over \$16 billion over the last 12 months."

"Our year to date double digit growth in our earnings and fee paying AUM metrics reflect our continuing strong business trends, including our ability to execute well in our core areas of fundraising, investing and harvesting gains," said Michael Arougheti, President of Ares. "As a result, we believe we are building the foundation for future value creation for our clients and unitholders."

Common Distribution

Ares declared a quarterly distribution of \$0.41 per common unit, payable on December 1, 2017 to common unitholders of record at the close of business on November 17, 2017.

Preferred Distribution

Ares declared a distribution of \$0.4375 per Series A Preferred Unit with a payment date of December 31, 2017 to preferred unitholders of record as of the close of business on December 15, 2017.

This presentation does not constitute an offer to sell or the solicitation of an offer to buy any securities of Ares.

Management uses certain non-GAAP financial measures, including assets under management, fee paying assets under management, economic net income and distributable earnings, to evaluate Ares’ performance and that of its business segments. Management believes that these measures provide investors with a greater understanding of Ares’ business and that investors should review the same supplemental non-GAAP financial measures that management uses to analyze Ares’ performance. The measures described herein represent those non-GAAP measures used by management, in each case, before giving effect to the consolidation of certain funds that the company consolidates with its results in accordance with GAAP. These measures should be considered in addition to, and not in lieu of, Ares’ financial statements prepared in accordance with GAAP. The definitions and reconciliations of these measures to the most directly comparable GAAP measures, as well as an explanation of why we use these measures, are included in the Appendix. Amounts and percentages may reflect rounding adjustments and consequently totals may not appear to sum.

For the definitions of certain terms used in this presentation, please refer to the "Glossary" slide in the appendix.

1. Represents gross new commitments during Q3-17, including equity and debt commitments and gross inflows into our open-ended managed accounts and sub-advised accounts.

Assets Under Management

AUM of \$105.6 billion as of September 30, 2017 increased 8.5% year over year⁽¹⁾

- Q3-17 net new capital commitments of \$5.5 billion, including \$2.9 billion in equity commitments and \$2.6 billion in debt commitments
 - Of the \$5.5 billion in gross new capital commitments raised during the quarter, \$2.1 billion is already earning fees and another \$3.1 billion is expected to become FPAUM upon deployment
- AUM growth was partially offset by distributions/redemptions of \$3.4 billion⁽²⁾, primarily in funds past their reinvestment periods in the Private Equity and Real Estate Groups, and by reduction in leverage of \$1.9 billion, primarily due to paydowns in CLOs and the dissolution of ARCC's SSLP program

FPAUM of \$72.4 billion as of September 30, 2017 increased 20.6% year over year

- Increase in FPAUM was primarily attributable to management fees turning on for ACOF V (effective March 3, 2017), which includes \$7.6 billion of fee paying AUM and ARCC's acquisition of ACAS which included \$2.8 billion of fee paying AUM at acquisition

AUM (\$ in billions)

FPAUM (\$ in billions)

1. As of September 30, 2017, AUM amounts include funds managed by Ivy Hill Asset Management, L.P., a wholly owned portfolio company of Ares Capital Corporation and a registered investment adviser.

2. For Q3-17, distributions totaled approximately \$2.2 billion and redemptions totaled approximately \$1.2 billion.

AUM, FPAUM and Management Fees Duration

As of September 30, 2017, approximately 75% of AUM and 73% of FPAUM had a duration longer than 3 years, from which FPAUM generated 83% of management fees in Q3 2017

- Within our Managed Accounts category, 57% of AUM and 64% of FPAUM has been with the firm longer than 3 years as of September 30, 2017

AUM: \$105.6 billion

FPAUM: \$72.4 billion

Management Fees: \$188.6 million

■ Permanent Capital
 ■ 10 or more years
 ■ 7 to 9 years
 ■ 3 to 6 years
 ■ Fewer Than 3 years
 ■ Managed Accounts

Incentive Eligible AUM and Incentive Generating AUM

Incentive Eligible AUM of \$60.4 billion as of September 30, 2017 increased by 18.1% year over year

- The increase was driven by ARCC (primarily from ARCC's acquisition of ACAS), as well as increases across U.S. and E.U. direct lending

Incentive Generating AUM of \$21.7 billion as of September 30, 2017 increased by 27.5% year over year

- The increase was primarily driven by additional funds exceeding their hurdle rates in our Private Equity, Credit and Real Estate Groups, as well as additional deployment of capital for existing funds already in excess of their hurdle rates prior to September 30, 2017

Of the \$38.0 billion of incentive eligible AUM that is currently invested, 57.1% is incentive generating

- Excluding the capital gains fee potential from the largely debt oriented ARCC portfolio, 82.7% of incentive eligible AUM that is currently invested is incentive generating

Q3-17 Incentive Generating to Incentive Eligible AUM Reconciliation

(\$ in millions)

	Credit	Private Equity	Real Estate	Total
Incentive Generating AUM	\$10,115	\$8,281	\$3,343	\$21,739
+ Uninvested IEAUM	10,073	9,969	2,348	22,390
+ IEAUM below hurdle	1,755	1,351	1,430	4,536
+ ARCC Part II Fees below Hurdle ⁽¹⁾	11,767	-	-	11,767
Incentive Eligible AUM	\$33,710	\$19,601	\$7,121	\$60,432

1. ARCC Part II Fees are paid when the cumulative aggregate net capital gains exceed cumulative aggregate realized capital losses and aggregate unrealized capital depreciation less any amounts paid in previous periods. As of September 30, 2017, the cumulative aggregate net capital gains were below the required hurdle by approximately 0.8% of the underlying portfolio plus cash of \$11.8 billion.

Available Capital and AUM Not Yet Earning Fees

Available Capital of \$25.8 billion as of September 30, 2017 increased 5.1% year over year

- The increase was primarily driven by new and additional commitments to U.S. direct lending funds, which was partially offset by capital deployment in the Credit, Private Equity and Real Estate groups

AUM Not Yet Earning Fees of \$14.8 billion as of September 30, 2017 decreased 19.5% year over year

- AUM Not Yet Earning Fees decreased from \$18.4 billion as of Q3-16 to \$14.8 billion as of Q3-17
- The decrease was primarily driven by \$7.6 billion of FPAUM for ACOF V which began to pay management fees in Q1 2017 and was partially offset by new AUM Not Yet Earning fees raised during the past year, primarily in the Credit Group

Available Capital (\$ in millions)

AUM Not Yet Earning Fees (\$ in millions)

AUM Not Yet Earning Fees

As of September 30, 2017, AUM Not Yet Earning Fees of \$14.8 billion could generate approximately \$159.0 million in potential incremental annual management fees, of which \$121.4 million relates to the \$11.7 billion of AUM available for future deployment*

\$11.7 billion of AUM Not Yet Earning Fees was available for future deployment as of September 30, 2017

- The \$11.7 billion includes approximately \$7.3 billion relating to U.S. and E.U. direct lending funds, \$1.9 billion in private equity funds, and \$1.1 billion in structured credit funds, among other funds

AUM Not Yet Earning Fees: \$14.8 billion

AUM Not Yet Earning Fees Available for Future Deployment: \$11.7 billion

\$11.7 billion of AUM Not Yet Earning Fees was available for future deployment as of September 30, 2017

(\$ in millions)

- Capital Available for Future Deployment
- Capital Available for Deployment for Follow-on Investments ⁽¹⁾
- Available Capital Currently in Funds Unlikely to Be Drawn Due to Leverage Targets and Restrictions
- Funds in or Expected to Be in Wind-down

- Credit
- Private Equity
- Real Estate

*No assurance can be made that such results will be achieved. Assumes the AUM Not Yet Earning Fees as of September 30, 2017 is invested and such fees are paid on an annual basis. Does not reflect any associated reductions in management fees from certain funds, some of which may be material. Reference to \$159.0 million includes approximately \$32.6 million in potential incremental management fees from deploying undrawn/available credit facilities at ARCC (in excess of 0.75X leverage), which may not be drawn due to leverage target limitations and restrictions. Excludes any potential ARCC Part I Fees.

1. Capital available for deployment for follow-on investments represents capital committed to funds that are past their investment periods but for which capital is available to be called for follow-on investments in existing portfolio companies. There is no assurance such capital will be invested.

Capital Deployment⁽¹⁾

- **Total gross invested capital during Q3-17 of \$5.0 billion compared to \$2.7 billion in Q3-16**
 - Of the total amount, \$3.6 billion was related to deployment in our drawdown funds compared to \$1.8 billion for the same period in 2016
 - Of our drawdown funds, the most active investment strategies were U.S. and E.U. Direct Lending and Private Equity
- **Total gross invested capital for the nine months ended September 30, 2017 of \$12.5 billion compared to \$7.4 billion for the nine months ended September 30, 2016**
 - Of the total amount, \$9.7 billion was related to deployment in drawdown funds compared to \$5.3 billion for the same period in 2016

5. After income tax Distributable Earnings attributable to common unitholders per unit calculation uses total common units outstanding, assuming no exchange of Ares Operating Group Units.
6. Units of 215,601,174 includes the sum of common units, Ares Operating Group Units that are exchangeable for common units on a one-for-one basis and the dilutive effects of the Company's equity-based awards.
7. Total fee revenue is calculated as management fees plus net performance fees.
8. Effective management fee rate represents the quotient of management fees and the aggregate fee bases for the quarters presented. The effective rate shown excludes the effect of one-time catch-up fees.

Credit Group⁽¹⁾

- Management and other fees increased 8% (after giving effect to ARCC Part 1 fee waiver) for Q3-17 compared to Q3-16, primarily driven by deployment in new U.S. and E.U. direct lending strategies and a 16% increase in FPAUM
- Performance Related Earnings decreased by \$8.5 million in Q3-17 from Q3-16, primarily driven by reduced market appreciation in Credit Strategies Fund and syndicated loan funds compared to a strong Q3-16, offset slightly by strong returns in our E.U. direct lending credit funds
- Distributable Earnings decreased by \$8.4 million for Q3-17 compared to Q3-16, primarily driven by lower net realized performance fees, partially offset by increases in fee related earnings and net realized investment income

Note: Past performance is not indicative of future results. The Credit Group had ~225 investment professionals, over 1,500 portfolio companies and 142 active funds as of September 30, 2017.

1. Segment results are shown before the unallocated support costs of the Operations Management Group. See "GAAP to Non-GAAP Reconciliation – Unconsolidated Reporting Basis" on slides 13-14.

2. This table is a financial summary only. See slides 23-24 for complete financial results.

3. Includes ARCC Part I Fees of \$24.0 million and \$33.3 million for Q3-17 and Q3-16, respectively, and \$76.4 million and \$90.9 million for Q3-17 YTD and Q3-16 YTD, respectively. The 2017 amounts are net of the \$10 million ARCC-ACAS transaction fee waiver.

4. The net return for E.U. direct lending is 2.8% for Q3-17. Gross and net returns for E.U. direct lending are represented by a composite made up of the ACE II and ACE III Euro-denominated feeder funds. The gross and net returns for the composite made up of the ACE II and ACE III U.S. dollar denominated feeder funds are 3.5% and 2.7% for Q3-17. Returns in the chart are shown for the Euro-denominated composite as it is the larger of the two composites. Composite returns are calculated by asset-weighting the underlying fund-level returns. Returns include the reinvestment of income and other earnings from securities or other investments and reflect the deduction of all trading expenses. Gross returns do not reflect the deduction of management fees, carried interest, if applicable, or any other expenses. Net returns are reduced by applicable management fees, accrued carried interest, if applicable, and other expenses.

5. Net performance returns: 1.4% for U.S. Syndicated Loan funds and 3.0% for U.S. High Yield funds. Performance for Syndicated Loans is represented by our U.S. Bank Loan Aggregate Composite. Performance for High Yield is represented by our U.S. High Yield composite.

Private Equity Group⁽¹⁾

- Management and other fees increased 46% for Q3-17 compared to Q3-16, primarily attributable to ACOF V, which began paying management fees in March 2017. This increase was partially offset by the reduction in management fees attributable to the step down in fee rate and fee basis for ACOF IV in connection with the launch of ACOF V
- Performance Related Earnings for Q3-17 decreased by \$30.3 million from Q3-16, primarily driven by a lower net performance fees and net investment income in our corporate private equity strategies compared to a strong Q3-16
- Distributable Earnings increased by \$30.3 million for Q3-17 compared to Q3-16, primarily driven by increases in fee related earnings and net realized performance fees. Q3-17 realizations included the partial monetization of private and public holdings across ACOF III and IV

Gross return in Corporate Private Equity portfolio⁽³⁾

Note: Past performance is not indicative of future results. The Private Equity Group had ~95 investment professionals, 32 portfolio companies, 63 U.S. Power and Energy Assets and 21 active funds and related co-investment vehicles as of September 30, 2017.

1. Segment results are shown before the unallocated support costs of the Operations Management Group. See "GAAP to Non-GAAP Reconciliation – Unconsolidated Reporting Basis" on slides 13-14.

2. This table is a financial summary only. See slides 23-24 for complete financial results.

3. Performance for corporate private equity portfolio is represented by the ACOF I-V Aggregate, which is comprised of investments held by ACOF I, ACOF II, ACOF III, ACOF IV and ACOF V. Performance returns are gross time-weighted rates of return calculated on a quarterly basis. Returns include the reinvestment of income and other earnings from securities or other investments and reflect the deduction of all trading expenses. Gross returns do not reflect the deduction of management fees, carried interest, if applicable, or any other expenses including taxes. Net returns are reduced by applicable management fees, accrued carried interest, if applicable, and other expenses. Net returns for corporate private equity portfolio was (0.9%) for Q3-17 and 20.8% for the last twelve months. We believe aggregated performance returns reflect overall quarterly performance returns in a strategy, but are not necessarily investable funds or products themselves.

Real Estate Group⁽¹⁾

- Management and other fees decreased 5% for Q3-17 compared to Q3-16, primarily driven by run-off and liquidations in vintage funds in the U.S. equity strategy, partially offset by new fundraising for E.U. and U.S. equity strategies
- Performance Related Earnings increased by \$2.2 million for Q3-17 compared to Q3-16, primarily driven by continued strong appreciation in E.F. IV and other equity strategies in the U.S. and Europe
- Distributable Earnings decreased by \$1.7 million for Q3-17 compared to Q3-16, primarily driven by a decline in fee related earnings, partially offset by an increase in net realized investment income

Note: Past performance is not indicative of future results. AUM and Net Returns as of September 30, 2017 unless otherwise noted. The above table includes fund performance metrics for significant funds which includes those that contributed at least 1% of total management fees for the nine months ended September 30, 2017 or comprised 1% or more of the Company's total FPAUM as of September 30, 2017, and for which we have sole discretion for investment decisions within the fund. Please see significant fund performance endnotes on slides 30-31 for additional information. Return information presented may not reflect actual returns earned by investors in the applicable fund.

* We do not present fund performance metrics for significant funds with less than two years of historical information, except for those significant funds which pay management fees on invested capital, in which case performance is shown at the earlier of (i) the one year anniversary of the fund's first investment and (ii) such time the fund is 50% or more invested.

Significant Fund Performance Metrics Endnotes

Credit

1. Returns are time-weighted rates of return and include the reinvestment of income and other earnings from securities or other investments and reflect the deduction of all trading expenses.
2. Since inception returns are annualized.
3. Net returns are calculated using the fund's NAV and assume dividends are reinvested at the closest quarter-end NAV to the relevant quarterly ex-dividend dates. Additional information related to ARCC can be found in its financial statements filed with the SEC, which are not part of this presentation.
4. Gross returns do not reflect the deduction of management fees or any other expenses. Net returns are calculated by subtracting the applicable management fee from the gross returns on a monthly basis.
5. Realized proceeds represent the sum of all cash distributions to all partners and if applicable, exclude tax and incentive distributions made to the general partner.
6. Unrealized value represents the fund's NAV reduced by the accrued incentive allocation, if applicable. There can be no assurance that unrealized values will be realized at the valuations indicated.
7. The gross multiple of invested capital ("MoIC") is calculated at the fund-level and is based on the interests of the fee-paying limited partners and if applicable, excludes interests attributable to the non-fee paying limited partners and/or the general partner which does not pay management fees or performance fees. The gross MoIC is before giving effect to management fees, performance fees as applicable and other expenses.
8. The net MoIC is calculated at the fund-level and is based on the interests of the fee-paying limited partners and if applicable, excludes those interests attributable to the non-fee paying limited partners and/or the general partner which does not pay management fees or performance fees. The net MoIC is after giving effect to management fees, performance fees as applicable and other expenses.
9. The gross IRR is an annualized since inception gross internal rate of return of cash flows to and from the fund and the fund's residual value at the end of the measurement period. Gross IRR reflects returns to the fee-paying limited partners and if applicable, excludes interests attributable to the non-fee paying limited partners and/or the general partner which does not pay management fees or performance fees. The cash flow dates used in the gross IRR calculation are based on the actual dates of the cash flows. The net IRRs are calculated before giving effect to management fees, performance fees as applicable, and other expenses.
10. The net IRR is an annualized since inception net internal rate of return of cash flows to and from the fund and the fund's residual value at the end of the measurement period. Net IRRs reflect returns to the fee-paying limited partners and if applicable, exclude interests attributable to the non-fee paying limited partners and/or the general partner who does not pay management fees or performance fees. The cash flow dates used in the net IRR calculations are based on the actual dates of the cash flows. The net IRRs are calculated after giving effect to management fees, performance fees as applicable, and other expenses. The funds may utilize a credit facility during the investment period and for general cash management purposes. Net fund-level IRRs would have been lower had such fund called capital from its limited partners instead of utilizing the credit facility.
11. ACE II is made up of two feeder funds, one denominated in U.S. dollars and one denominated in Euros. The gross and net IRR and gross and net MoIC presented in the chart are for the U.S. dollar denominated feeder fund as that is the larger of the two feeders. The gross and net IRR for the Euro denominated feeder fund are 12.7% and 9.6%, respectively. The gross and net MoIC for the Euro denominated feeder fund are 1.4x and 1.3x, respectively. Original capital commitments are converted to U.S. dollars at the prevailing exchange rate at the time of the fund's closing. All other values for ACE II are for the combined fund and are converted to U.S. dollars at the prevailing quarter-end exchange rate. The variance between the gross and net MoICs and the net IRRs for the U.S. dollar denominated and Euro denominated feeder funds is driven by the U.S. GAAP mark-to-market reporting of the foreign currency hedging program in the U.S. dollar denominated feeder fund. The feeder fund will be holding the foreign currency hedges until maturity, and therefore is expected to ultimately recognize a gain while mitigating the currency risk associated with the initial principal investments.
12. ACE III is made up of two feeder funds, one denominated in U.S. dollars and one denominated in Euros. The gross and net MoIC presented in the chart are for the Euro denominated feeder fund as that is the larger of the two feeders. The gross and net IRR for the U.S. dollar denominated feeder fund are 18.1% and 13.3%, respectively. The gross and net MoIC for the U.S. dollar denominated feeder fund are 1.2x and 1.1x, respectively. Original capital commitments are converted to U.S. dollars at the prevailing exchange rate at the time of the fund's closing. All other values for ACE III are for the combined fund and are converted to U.S. dollars at the prevailing quarter-end exchange rate.

Private Equity

1. Realized proceeds represent the sum of all cash dividends, interest income, other fees and cash proceeds from realizations of interests in portfolio investments.
2. Unrealized value represents the fair market value of remaining investments. There can be no assurance that unrealized investments will be realized at the valuations indicated.
3. The gross MoIC is calculated at the investment-level and is based on the interests of all partners. The gross MoIC is before giving effect to management fees, performance fees as applicable and other expenses.
4. The net MoIC for the U.S. power and energy infrastructure funds is calculated at the fund-level. The net MoIC for the corporate private equity funds is calculated at the investment-level. For all funds, the net MoIC is based on the interests of the fee-paying limited partners and if applicable, excludes those interests attributable to the non-fee paying limited partners and/or the general partner who does not pay management fees or performance fees. The net MoIC is after giving effect to management fees, performance fees as applicable and other expenses.
5. The gross IRR is an annualized since inception gross internal rate of return of cash flows to and from investments and the residual value of the investments at the end of the measurement period. Gross IRRs reflect returns to all partners. Cash flows used in the gross IRR calculation are assumed to occur at month-end. The gross IRRs are calculated before giving effect to management fees, performance fees as applicable, and other expenses.
6. The net IRR for the U.S. power and energy infrastructure funds is an annualized since inception net internal rate of return of cash flows to and from the fund and the fund's residual value at the end of the measurement period. The cash flow dates used in the net IRR calculations are based on the actual dates of the cash flows. The net IRR for the corporate private equity funds is an annualized since inception net internal rate of return of cash flows to and from investments and the residual value of the investments at the end of the measurement period. The funds may utilize a credit facility during the investment period and for general cash management purposes. Net fund-level IRRs would have been lower had such fund called capital from its limited partners instead of utilizing the credit facility. Cash flows used in the net IRR calculations are assumed to occur at month end. For all funds, the net IRRs are calculated after giving effect to management fees, performance fees as applicable, and other expenses and exclude commitments by the general partner and Schedule I investors who do not pay either management fees or carried interest. Including the timing on contribution and distributions to and from the corporate private equity funds, net investor IRRs since inception for ACOF III is 22.3% and for ACOF IV is 15.2%.
7. The Gross MoIC is lower than the Net MoIC due to the fund's utilization of a credit facility to fund an investment that is currently under construction and not generating cash flow.

Real Estate

1. Realized proceeds include distributions of operating income, sales and financing proceeds received.
2. Unrealized value represents the fair market value of remaining investments. There can be no assurance that unrealized investments will be realized at the valuations indicated.
3. The gross MoIC is calculated at the investment level and is based on the interests of all partners. The gross MoIC for all funds is before giving effect to management fees, performance fees as applicable and other expenses.
4. The net MoIC is calculated at the fund-level and is based on the interests of the fee-paying partners and, if applicable, excludes interests attributable to the non fee-paying partners and/or the general partner who does not pay management fees or performance fees or has such fees rebated outside of the fund. The net MoIC is after giving effect to management fees, performance fees as applicable and other expenses.
5. The gross IRR is an annualized since inception gross internal rate of return of cash flows to and from investments and the residual value of the investments at the end of the measurement period. Gross IRRs reflect returns to all partners. Cash flows used in the gross IRR calculation are assumed to occur at quarter-end. The gross IRRs are calculated before giving effect to management fees, performance fees as applicable, and other expenses.
6. The net IRR is an annualized since inception net internal rate of return of cash flows to and from the fund and the fund's residual value at the end of the measurement period. Net IRRs reflect returns to the fee-paying partners and, if applicable, excludes interests attributable to the non fee-paying partners and/or the general partner who does not pay management fees or performance fees or has such fees rebated outside of the fund. The cash flow dates used in the net IRR calculation are based on the actual dates of the cash flows. The net IRRs are calculated after giving effect to management fees, performance fees as applicable, and other expenses. The funds may utilize a credit facility during the investment period and for general cash management purposes. Net fund-level IRRs would have been lower had such fund called capital from its limited partners instead of utilizing the credit facility.
7. EF IV is made up of two parallel funds, one denominated in U.S. dollars and one denominated in Euros. The gross and net MoIC and gross and net IRRs presented in the chart are for the U.S. dollar denominated parallel fund as that is the larger of the two funds. The gross and net IRRs for the Euro denominated parallel fund are 20.3% and 13.9%, respectively. The gross and net MoIC for the Euro denominated parallel fund are 1.3x and 1.2x, respectively. Original capital commitments are converted to U.S. dollars at the prevailing exchange rate at the time of fund's closing. All other values for EF IV are for the combined fund and are converted to U.S. dollars at the prevailing quarter-end exchange rate.
8. EPEP II is made up of dual currency investors and Euro currency investors. The gross and net MoIC presented in the chart are for dual currency investors as dual currency investors represent the largest group of investors in the fund. Multiples exclude foreign currency gains and losses since dual currency investors fund capital contributions and receive distributions in local deal currency (GBP or EUR) and therefore, do not realize foreign currency gains or losses. The gross and net MoIC for the Euro currency investors, which include foreign currency gains and losses, are 1.2x and 1.1x, respectively. Original capital commitments are converted to U.S. dollars at the prevailing exchange rate at the time of fund's closing. All other values for EPEP II are for the combined fund and are converted to U.S. dollars at the prevailing quarter-end exchange rate.

1. Represents units exchangeable for Ares Management, L.P. common units on a one-for-one basis.

2. We apply the treasury stock method to determine the dilutive weighted-average common units represented by our restricted stock to be settled in common units and options to acquire common units. Under the treasury stock method, compensation expense attributed to future services and not yet recognized is presumed to be used to acquire outstanding common units, thus reducing the weighted-average number of units and the dilutive effect of these awards.

3. Represents proportional dilutive impact based upon the percentage of Ares Operating Group owned by Ares Management, L.P. (38.69% and 37.98% as of September 30, 2017 and 2016, respectively).

Note: These tables are a reconciliation of consolidated performance fee income, realized and unrealized performance fee income and net investment income to an unconsolidated basis, which assist in the reconciliation of GAAP Net Income to fee related earnings and distributable earnings. These reconciliations show the results of the reportable segments on a combined basis together with the Operations Management Group. Management believes that this presentation is more meaningful than a reconciliation to the reportable segments on a segment basis because such reconciliation would exclude the Operations Management Group. Differences may arise due to rounding.

Glossary

ARCC Part I Fees	ARCC Part I Fees refers to a quarterly performance fee on the investment income from ARCC.
ARCC Part II Fees	ARCC Part II Fees refers to fees based on ARCC's net capital gains, which are paid annually.
Ares Operating Group Units	Ares Operating Group Unit refers to, collectively, a partnership unit in each of the Ares Operating Group entities.
Assets Under Management	Assets Under Management (or "AUM") refers to the assets we manage. For our funds other than CLOs, our AUM represents the sum of the net asset value of such funds, the drawn and undrawn debt (at the fund level including amounts subject to restrictions) and uncalled committed capital (including commitments to funds that have yet to commence their investment periods). For our funds that are CLOs, our AUM represents subordinated notes (equity) plus all drawn and undrawn debt tranches.
AUM Not Yet Earning Fees	AUM Not Yet Earning Fees, also referred to as Shadow AUM, is our AUM that is not currently generating fees and is eligible to earn management fees upon deployment.
Available Capital	Available Capital is comprised of uncalled committed capital and undrawn amounts under credit facilities and may include AUM that may be canceled or not otherwise available to invest (also referred to as "Dry Powder").
Consolidated Funds	Consolidated Funds refers collectively to certain Ares-affiliated funds, related co-investment entities and certain CLOs that are required under GAAP to be consolidated in our consolidated financial statements.
Distributable Earnings	Distributable earnings (or "DE"), a non-GAAP measure, is an operating metric that assesses our performance without the effects of our consolidated funds and the impact of unrealized income and expenses, which generally fluctuate with fair value changes. Among other things, this metric also is used to assist in determining amounts potentially available for distribution. However, the declaration, payment, and determination of the amount of distributions to unitholders, if any, is at the sole discretion of our Board of Directors, which may change our distribution policy at any time. Distributable earnings is calculated as the sum of Fee Related Earnings, realized performance fees, realized performance fee compensation, realized net investment and other income, and is reduced by expenses arising from transaction costs associated with acquisitions, placement fees and underwriting costs, expenses incurred in connection with corporate reorganization and depreciation. Distributable earnings differs from income before taxes computed in accordance with GAAP as it is typically presented before giving effect to unrealized performance fees, unrealized performance fee compensation, unrealized net investment income, amortization of intangibles, and equity compensation expense. DE is presented prior to the effect of income taxes attributable to Ares Holdings Inc, and to distributions made to our preferred unitholders, unless otherwise noted.
Economic Net Income	Economic net income (or "ENI"), a non-GAAP measure, is an operating metric used by management to evaluate total operating performance, a decision tool for deployment of resources, and an assessment of the performance of our business segments. ENI differs from net income by excluding (a) income tax expense, (b) operating results of our Consolidated Funds, (c) depreciation and amortization expense, (d) the effects of changes arising from corporate actions, and (e) certain other items that we believe are not indicative of our total operating performance. Changes arising from corporate actions include equity-based compensation expenses, the amortization of intangible assets, transaction costs associated with mergers and acquisitions and capital transactions, placement fees and underwriting costs and expenses incurred in connection with corporate reorganization.

Glossary (cont'd)

Fee Paying Assets Under Management	Fee paying AUM (or “FPAUM”) refers to the AUM on which we directly earn management fees. Fee paying AUM is equal to the sum of all the individual fee bases of our funds that directly contribute to our management fees.
Fee Related Earnings	Fee related earnings (or “FRE”), a non-GAAP measure, refers to a component of ENI that is used to assess core operating performance by determining whether recurring revenue, primarily consisting of management fees, is sufficient to cover operating expenses and to generate profits. FRE differs from income before taxes computed in accordance with GAAP as it adjusts for the items included in the calculation of ENI and excludes performance fees, performance fee compensation, investment income from our Consolidated Funds and non-consolidated funds and certain other items that we believe are not indicative of our performance.
Gross Invested Capital	Gross Invested Capital refers to the aggregate amount of new capital invested by our funds during a given period, and includes investments made by our draw-down funds and permanent capital vehicles (and affiliated funds) and new capital raised and invested by our open-ended managed accounts, sub advised accounts and CLOs, but excludes capital that is reinvested (after receiving repayments of capital) by our open-ended managed accounts, sub advised accounts and CLOs.
Incentive Generating Assets Under Management	Incentive generating AUM (or “IGAUM”) refers to the AUM of our funds that are currently generating, on a realized or unrealized basis, performance fee revenue. It generally represents the NAV of our funds for which we are entitled to receive a performance fee, excluding capital committed by us and our professionals (which generally is not subject to a performance fee). With respect to ARCC, only ARCC Part II Fees may be generated from IGAUM .
Incentive Eligible Assets Under Management	Incentive eligible AUM (or “IEAUM”) refers to the AUM of our funds that are eligible to produce performance fee revenue, regardless of whether or not they are currently generating performance fees. It generally represents the NAV plus uncalled equity of our funds for which we are entitled to receive a performance fee, excluding capital committed by us and our professionals (which generally is not subject to a performance fee).
Net Inflows of Capital	Represents net new commitments during the period, including equity and debt commitments and gross inflows into our open-ended managed accounts and sub-advised accounts, as well as equity offerings by our publicly traded vehicles minus redemptions from our open-ended funds, managed accounts and sub-advised accounts.
Operations Management Group	In addition to our three segments, we have an Operations Management Group (the “OMG”) that consists of five independent, shared resource groups to support our reportable segments by providing infrastructure and administrative support in the areas of accounting/finance, operations/information technology, business development/corporate strategy, legal/compliance and human resources. The OMG’s expenses are not allocated to our three reportable segments but we consider the cost structure of the OMG when evaluating our financial performance. Our management uses this information to assess the performance of our reportable segments and our Operations Management Group, and we believe that this information enhances the ability of unitholders to analyze our performance.

Glossary (cont'd)

Our Funds	Our funds refers to the funds, alternative asset companies, co-investment vehicles and other entities and accounts that are managed or co-managed by the Ares Operating Group, and which are structured to pay fees. It also includes funds managed by Ivy Hill Asset Management, L.P., a wholly owned portfolio company of ARCC, and a registered investment adviser.
Performance Fees	Performance fees refers to fees we earn based on the performance of a fund, which are generally based on certain specific hurdle rates as defined in the fund's investment management or partnership agreements and may be structured as either an incentive fee or as carried interest.
Performance Related Earnings	Performance related earnings (or "PRE"), a non-GAAP measure, is used to assess our investment performance net of performance fee compensation. PRE differs from income (loss) before taxes computed in accordance with GAAP as it only includes performance fees, performance fee compensation and total investment and other income that we earn from our Consolidated Funds and non-consolidated funds.
Permanent Capital	Permanent capital refers to capital of our funds that do not have redemption provisions or a requirement to return capital to investors upon exiting the investments made with such capital, except as required by applicable law, which funds currently consist of Ares Capital Corporation ("ARCC"), Ares Commercial Real Estate Corporation ("ACRE"), and Ares Dynamic Credit Allocation Fund, Inc. ("ARDC"); such funds may be required, or elect, to return all or a portion of capital gains and investment income.
Senior Secured Loan Fund LLC	Senior Secured Loan Fund LLC (or "SSLP") is a program co-managed by a subsidiary of Ares through which ARCC co-invests with affiliates of General Electric Company.
Syndicated Loans Strategy	Syndicated loans strategy refers to a diversified portfolio of liquid, traded non-investment grade secured loans to corporate issuers, including an allocation to syndicated middle market loans.
Total Fee Revenue	Total fee revenue refers to the sum of segment management fees and net performance fees.
